

Press Release 05/2013

Spin-off of the Material Compliance product sector

The service and software enterprise tec4U-Ingenieurgesellschaft mbH has spun off its Material Compliance product division into the independent company tec4U-Solutions GmbH.

(Saarbrücken, 07 October 2013) tec4U-Solutions GmbH started its business operations on 1 October, 2013. The newly established company will be taking over the entire Material Compliance business sector from tec4U-Ingenieurgesellschaft mbH along with its corresponding software products and services. Stefan Nieser, who formerly served as the business unit manager for this sector at tec4U-Ingenieurgesellschaft mbH, has been appointed managing director of the new company. All of the employees of this division will be joining him at the new company, which will ensure a smooth takeover of all of the topics and projects.

tec4U has been developing software and services in the Material Compliance business sector since 1999 for the implementation of legislation relevant to environmental protection and occupational safety such as ELV, REACH, RoHS, Ordinance on Hazardous Substances etc., as well as material-specific customer requirements. The thematic focus of tec4U-Solutions GmbH serves to strengthen and further develop the established support services. Along with consultation services, these include special software applications and in particular, operative support in the implementation of requirements for companies in the automotive, commercial vehicle, medical technology, electrical/electronic, toy, textile and retail industries.

tec4U-Solutions and Ingenieurgesellschaft will continue to collaborate in the tec4U Group. The breakdown of topics into various companies allows these companies to achieve a specific focus and thus to concentrate their innovation strength on their own core topics and expertise. The merger in the tec4U Group guarantees continuation of the established collaboration due to joint work on projects.

ELV: End of Life Vehicles Directive 2000/53/EG

RoHS: Restriction of Hazardous Substances Directive 2011/65/EU

REACH: Registration, Evaluation, Authorisation and Restriction of Chemicals
Regulation 1907/2006/EG
